Hi Susan,

Thanks for sending the MOU on MTM. I have to admit that I had not seen it.
I am wondering if you had any feedback from the Philadelphia folks regarding attendance and flight information? Tom Smith is working on logistics, and of course the times that folks must depart is a control on the agenda.

Also, Tom was hoping we might talk with you today or tomorrow to get your feedback on the day's agenda and to make sure that we were allocating enough time to the areas that EPA most wanted to cover.
What's your schedule look like?

Thanks again for your assistance in this,
Carol
